MEETING OVERVIEW
The Annual Meeting of the Association for Information Science and Technology is the premier international conference dedicated to the study of information, people, and technology in contemporary society. The ASIS&T Annual Meeting gathers leading scholars and practitioners from around the globe to share innovations, ideas, research, and insights into the state and future of information and communication in play, work, governance, and society.

The Annual Meeting will be a fully face-to-face meeting, with the exception of one virtual workshop on 4 October.

ABOUT ASIS&T
For 87 years, the Association for Information Science and Technology (ASIS&T) has been the leader in keeping information professionals, information research managers, librarians, records managers, and others who “bridge-the-gap” between the present and future, between research and application, and between developer and user. ASIS&T helps its 2,000 members and conference attendees meet the challenges of today and prepare for tomorrow.

WHO ATTENDS?
The ASIS&T Annual Meeting is the preeminent global gathering of information science researchers and professionals in the world. The meeting draws an extremely targeted audience of more than 400 information science researchers and practitioners from around the world.

EDUCATIONAL SESSIONS
- Workshops are held on Friday and Saturday, 25-26 October and require a separate fee. There will be a virtual workshop on 4 October.
- Sessions are held throughout the day on Sunday-Tuesday. Sessions vary in length as noted in the meeting app.

PRESENTER INFORMATION
- Since prerecorded or virtual presentations are not permitted, if you know you are unable to present your paper, please arrange for a coauthor to present and email us right away so we can update the program – email meetings@asist.org.
- Long and short papers have been grouped together based on a common topic into Paper Sessions. Long papers will be 20-minute presentations with 10 minutes for questions and answers. Short Papers will be 12-minute presentations with 3 minutes for questions and answers.
- You may review the conference agenda in ConfTool to confirm the description, date, time, and location of the session.
Room Set Up, Internet, and AV Equipment:

- Meeting rooms will be set theater style (no tables) based on the expected size of the audience.
- Sessions will be set with basic AV equipment – LCD projector, laptop, and screen. Basic wireless internet will be available in meeting rooms and public spaces; however, it will not accommodate any live streaming or large downloads. Additional internet and equipment will not be available onsite.
- It is recommended that presenters meet in the session room 20 minutes prior to the session start time to upload each presentation onto the primary laptop to ensure a smooth transition between presentations. It’s disruptive to the flow of the session to have to switch between laptops for each presenter. It is recommended that you bring a back-up of your presentation on a flash drive.

For All Presenters:

- In early September, you will receive an email from Whova our provider of our meeting app. The email will contain a link for you to access your speaker profile so you can upload your photograph (optional) and biographical sketch into our app. Please do so right away so your information is there for registrants to access. If you don’t wish to use the app, please email us your biographical sketch as soon as possible so we can upload it to the app. If you don’t receive the email by 13 September, please let us know right away via email to meetings@asist.org.

- A moderator introduces each Paper Session. He/she will welcome the attendees, introduce the speakers, make any housekeeping announcements, and facilitate the question-and-answer period. Your moderator will be contacting you for information about you for the introduction.
ASIS&T STYLING STANDARDS
FOR ALL POWERPOINT PRESENTATIONS

• To ensure a consistent look throughout the meeting, presenters are asked to use the ASIS&T 2024 Annual Meeting template when preparing your slide deck.

• Minimum font size to use in your presentation = 28.

• Minimize use of animation.

• Utilize video when appropriate. Video is engaging and breaks the monotony.

• Have an image or graphic on at least 90% of your slides.

• Minimize text. If the audience must choose between reading the slide or listening to you, half of your information will be lost to them because they cannot do both.

• Minimize clutter. Avoid including too much information on one slide.

• Colors are often paled by a projector and large screen, so use more vibrant colors than you normally would.

• To “green” the conference, we discourage the distribution of handouts at the conference. Alternatively, you may upload any documents into the conference app.
